1	Master's Program in Mechanical and Mechatronic Engineering of the Department of Mechanical Engineering	Early August every year	For Grade 3: 1. Completion of at least 50 credits from the department in the previous four semesters 2. Ranking in the top 60% of the class/department based on the average grade in the previous four semesters 3. Meeting any one of the above criteria is sufficient for eligibility	Document Review: 1. Resume or E-portfolio ★ Admission will be based on the order of scores in the document review.
		Mid-September every year	For Grade 4 (First Semester): 1. Completion of at least 65 credits from the department in the previous five semesters 2. Ranking in the top 60% of the class/department based on the average grade in the previous five semesters 3. Meeting any one of the above criteria is sufficient for eligibility	Document Review: 1. Resume or E-portfolio ★ Admission will be based on the order of scores in the document review.
		After the start of the second semester each academic year	For Grade 4 (Second Semester): 1. Completion of at least 79 credits from the department in the previous six semesters 2. Ranking in the top 60% of the class/department based on the average grade in the previous six semesters 3. Meeting any one of the above criteria is sufficient for eligibility	Document Review: 1. Resume or E-portfolio ★ Admission will be based on the order of scores in the document review.
