Notes:

1. The date of registration, the date when classes begin (or commencement of the new semester), and calculation of semesters are determined based on the school calendar formally announced by each school. If there is no date of registration for a school, the deadline for tuition payment shall be deemed as the date of registration.
2. For a student dropping out or quitting school voluntarily, the base date used to determine suspension or withdrawal is the date on which the student (or the student's parent) formally applies to the unit designated by the school for the suspension or withdrawal. For a student ordered by the school to withdraw from school, the base date used to determine withdrawal is the date on which the notice of withdrawal from the school is delivered to the student. However, for a student still taking courses at the school while responding to (or making a complaint about) the withdrawal, the date on which the student actually leaves the school shall be deemed as the base date.
3. The suspending or withdrawing student has to complete the procedure of leaving school during the period provided by the school. In the case such completion is delayed due to any cause attributable to the student, the date on which the student actually leaves the school shall be deemed as the base date.
4. No school shall receive any fee in advance prior to the date of commencement of the new semester indicated in the school calendar.
